# Atlantic TECHNOLOGY

# Superb Sound, Unmatched Value, Easy Installability

## Powered Subwoofers
Articulate, Detailed, Powerful

### 642e SB

- 350 watt amplifier
- 12" super heavy-duty woofer
- Front mounted level control
- Low level in/thru put
- Auto on/off
- Heavily braced sealed MDF enclosure
- Matte black finish with choice of satin black or gloss black side panels
- Exclusive Atlantic Clear Filter Technology (CFT™)

THX SELECT

### 444 SB

- 325 watt amplifier
- 12" composite cone woofer
- Front-mounted volume control
- Auto on/off
- Heavily braced sealed MDF enclosure
- Satin Black side panels
- Exclusive Atlantic Clear Filter Technology (CFT™)

### 224 SB

- 180 watt amplifier
- 10" composite cone woofer
- Front-mounted volume control
- Auto on/off
- Heavily braced sealed MDF enclosure
- Satin Black side panels
- Exclusive Atlantic Clear Filter Technology (CFT™)

### SB-900/SB-900DF

- 125-watt subwoofer
- Ideal companion to FS-7.1
- Long-throw 8" woofer
- Easy-to-place compact size
- Matte black finish

## In-Ceiling Speaker Systems
The Perfect Answer for Invisible LCR or Surround Sound

### ICTS-6HT

- No-compromise in-ceiling LCR speaker
- Woofer angled 15 degrees towards listeners
- Tiltable 1" soft dome tweeter
- Front-mounted boundary compensation and tweeter level switches
- Heavy-duty 6½" woofer

### IC-8.3/6.3

- Invisible bezel design
- 6½" or 8" dual voice coil woofer
- Tiltable dual 1" soft dome tweeters
- Mono, stereo, and TriVector operation
- Rear-mounted dipole/bipole switch
- Optional steel back box/rough-in kits

### IC-8.2/6.2

- Invisible bezel design
- 8" carbon loaded mica/poly woofer
- Tiltable 1" soft dome tweeter
- Optional Steel back box/rough-in kits

### IC Square Grilles

- Optional square grilles for IC-Series speakers
- For 6.2 and 6.3, SQ-GRILLS-6
- For 8.2 and 8.3, SQ-GRILLS-8

### ICTS-6.1-IP

- 6½" Polypropylene woofer
- 1" soft-dome pivoting tweeter
- IP-compatible, with both Phoenix and conventional connectors
- Optional steel back box/rough-in kits

## Wireless Audio

### BTAA-50 – Bluetooth Reciever

- Bluetooth 4.0 connectivity allows you to stream audio content from any Bluetooth enabled device
- aptX® Audio Compression for highest quality audio streaming
- Allows for simple NFC pairing (Near Field Communication)
- Great wireless performance allows to transmit up to 30' in line of sight

## In-Wall Speaker Systems
No-Compromise Performance, Simple Installation

### IWTS-30 LCR

- 3-way system with 8" woofer, dual 3½" mids and Low Resonance Tweeter (LRT™)
- Entire M-T-M chamber rotates and tilts
- MDF baffle provides vastly superior acoustic "footing" than plastic
- Three acoustic controls
- Optional Back-box

THX ULTRA2

### IWTS-155 LCR

- LCR speaker for horizontal or vertical use
- Fits in 16"-on-center construction horizontally
- Dual 5¼" woofers on MDF baffle
- 1" Low Resonance Tweeter (LRT™)

THX ULTRA2

### IWTS-30 SR

- Dipole/Bipole switchable surround speaker
- Dual 5¼" woofers
- Dual 1" soft-dome tweeters
- Simple dog-leg mounting system
- Fits in standard 2 x 4" stud construction
- No back-box required

THX ULTRA

### IWTS-14 SR

- Dipole/Bipole switchable surround speaker
- Dual 4½" woofers
- Dual 1" soft-dome tweeters
- Simple dog-leg mounting system
- Fits in standard 2 x 4" stud construction
- No back-box required

### IWTS-10 LCR

- Two-way M-T-M design
- Dual 6½" woofers
- Tiltable 1" silk dome tweeter
- High-frequency level control
- No back-box required

### IWTS-5 LCR

- 6½" 2-way design
- Tiltable 1" silk dome tweeter
- High-frequency level control
- No back-box required

### IWTS-8e SUB + SA-380

- In-wall flush subwoofer module
- Dual 8" ultra long-throw, heavy duty woofers w/ braced CCMG cones
- RDT™ (Resonance Dampened Treatment) coated baffle
- Dedicated in-wall enclosure
- Fits in standard 2 x 4 walls
- Optional 380W SA-380 amp

THX ULTRA

### IWTS-28 SUB + SA-180

- In-wall subwoofer system
- Dual high-power 8" woofers on MDF baffle
- Infinite baffle design–no back box required
- Defeatable low-pass filter
- Fits in standard 2 x 4 walls
- Optional 180W SA-180 amp

### WA-50 – Wireless Audio System

- Send full-bandwidth stereo signals wirelessly from your computer, audio system or any device with an audio 'out' jackx
- 300-foot line-of-sight range
- Plug-'n-play–No Software Needed!

### WA-5030 – Wireless Audio System with Amplifier

- Adds an amplified receiver to the WA-50 System
- 2 x 30 Watts/ch, 1 kHz 8Ω
- IR remote for amp control
- Flexible multi-zone capability
